India, the World's most populous country with 1.44 Bn people has only 800 aircraft (1/5th of China's fleet)

	Population (Million)	# Domiciled Aircraft	GDP (PPP) Per Capita ($)	Aircraft/ Million People	Domestic seats per capita
India	1,440	700	11,000	0.5	0.13
China	1,410	3,750	26,000	2.7	0.59
USA	337	4,850	87,000	14.4	3.11

KevinJV

China with an equally large population has a fleet that is 5x bigger & offers 4.5x more DOM seats per capita

India's aviation boom is coming – will it be as big as China's or BIGGER?
